Skills

Programming

- Python
- C / C++
- Scala (Chisel)
- VHDL

Tools

- MATLAB
- Simulink
- LTSpice
- Vivado
- Git

Hardware

- FPGA (Basys 3)
- Circuit Analysis
- Troubleshooting
- Soldering

Systems

- Embedded Systems
- Signal Processing
- System Design
- System Architecture

Technical Interests

- HTML, CSS, Tailwind
- Express API
- Small Electronics
- Developing small-scale systems in Python
- github.com/Benni3

Languages

- Norwegian (Native)
- English (C1)
- Danish (Fluent)
- German (Conversational)
- Icelandic (Basic)

Benjamin Jarlsson Nemeth

Electrical Engineering Student – DTU

Electrical Engineering student at DTU with hands-on experience in hardware systems, circuit analysis, and FPGA development. Experienced in troubleshooting and building real-world systems, with strong interest in physics engineering, embedded systems, signal processing, and high-performance electronics.

Experience

Techincian & Shift Leader – Ryde Tehnologies

June 2023 – August 2025

- Diagnosed and repaired electrical faults in e-scooters
- Performed component-level troubleshooting
- Led shift operations and ensured efficient workflow

Lift operator & Ticket Control – Arlberger Bergbahn

November 2024 – April 2025

- Operated and monitored technical systems
- Ensured safety in high-risk environment
- Assisted with maintenance and inspections

Volenteer Worker – KLS (Klippen Lydsystemer)

June 2023 – Present

- Assisted with setup of audio systems
- Worked with signal flow and technical equipment
- Supported live event installations

Education

DTU – Electrical Engineering

September 2025 – Present

- Relevant coursework: Digital Electronics, Circuit Analysis, Signal Processing
- Focus on hardware systems and embedded technologies

Single Courses – University of Stavanger

August 2022 – December 2023

- Mathematics (Calculus, Linear Algebra)
- Engineering fundamentals
- Research and Development

STEM Program – St.Olav Videregående Skole

August 2021 – June 2024

- Focus on mathematics, physics, and technical subjects
- Engineering spesific cources, focusing on building and development
